ARMY SONGS

A FULL SALVATION Tune.—Tucker, B.B., 125. O God, I cry to Thee, to-day,
Set me free!
For purity of heart I pray,
Set me free! Set me free!
From cvil temper, self, and pride,
From every wrong in me beside,
Cleansing I clain, since Jesus died.
Set me free!

I long for Holiness of heart, With all that's worldly now I part; The doubts of bygone days remove, Baptize my sond with perfect love, A Pull Salvation let me prove.

'Arraju I plead O Lord, my God. From Salan's yoke by Thy shed Blood;

'A creature new in Christ, I crave

race to continue, and in His dealings with the race all the way through, the one great lesson which we must learn if ever we get to Heaven, namely, that God is the Great Good, the one satisfying portion for the human soul? Then, I said, "O Lord, do Thou Even Heaven to them. Reveal to the both the were restrict." they were created."

Satan has delisted the race by getting them to imagine that other ends, and things, and beings are the great good for which they were made. One young man sets his eyes on a beautiful young woman, loves her, and thinks that she will be hisgreat good. She will be a great good, if she is a Godly girl, but not the great good for which he was made, and therefore if he stops short made, and therefore if he stops short there, he will miss his mark, and God will perhaps have to take her away from him, to show him his mistake, and to lead him to seek his happiness in God.

Oh! how many of these disappointed men I have talked to! Men whose life was almost gone, as their silver locks and tot-tering limbs testified, and, as they

Such people try to satisfy their souls with that which can never souls with that which can never, satisfy them. Happy if, at last like the prodigal, they find out their mis-take, and turn to God before all

Is Lost For Ever!

Others make their family their great good. They say, "I will make this boy this, and that girl the other"; but there is hardly a parent on earth can do with his on earth can do with his children what he desires, and he finds that even his children are not his great good. I hear there are some of you that say "Amen!" to that, but you will have bitterer things yet. God is bound to disappoint you; if Hewould saxe, you, while you place you'll refer the same that the same anything short of Himself. He hade you for Himself, and He will have you for Himself, or He will shut you up with the devil and his angels.

up with the devil and his angels.

The universe will only be divided into two parts at last—those who will be for God, and those against Him. If you do not take Him for your great good now, you will be reckoned amongst those who are against Him then. Those beings that have affinities for each other gather together. If there were no God, and souls continue what they are, if after death your inclinations and dispositions are evil, you will go with the cvil. The good will all go to the right hand, because right is right; and the bad will all go to the left,

Since this prayer meetings have been started on hoard the ship which they belong, and sonls are king mercy. Following this, this secking mercy. convert brought along six men (who had become converted as a result of his efforts on board ship) to the Soldiers' meeting on Monday night, and seeing that they could not speak English, he had arranged for them to sing together in Norwegian, after wards translating each one's testi-mone into English. This was also their farewell as they were returning to Norway next day. The effect upon the meeting was wonderful, Our open-air attendance for the

undred.

At our altar service, after the vonne comrades had placed their young comrades had placed their gifts on the altar, a young lady came forward and presented herself a gift to Christ. A young convert, timid about giving her testimony, wrote it down and learnt it off by heart, but has since so advanced that in Soldiers' meetings, the older cour-rades have to look to their laurels,

A bluejacket, a recent visitor, gave a few echoes from his own life, Drunken parents, given gin to send him to sleep when a habe in arms, wandered into the world, joined the wandered into the world, Jonese the navy, encountered many hard knocks, met a young lady, who in-sisted he either had to give up ifrink or her-decided drink must go— soon after found Christ, and has

soon after found Carrst, and has since for many years followed Him, Very seldom The Salvation Army has to ask not to give any more in the collection, but such was the the ordinary collection fell short of our average. The drum was placed on the ring and a request was made for the balance. It immediately be-gan to rain money all about the ring with the very amusing result of an Army Officer requesting them to stop. God is good to us.

SUBSTANTIAL PROGRESS

BEING A REVIEW OF THE FOUR YEARS COMMAND BY BUT GADIER AND MRS. McLEAN OF NORTH-WEST DIVISION

T win in November torr that Brigadier and Mrs. McLean took charge of The Army's Work in the Prairie Provinces. Advances and improvement have been gencrat, and some months ago it was subdivided, and a separate Division formed of the Corps situate in the Province of Alberta. This makes comparisons difficult. One of the comparisons difficult. One of the most pleasing facts is that during the period under review approxi-mately eight thousand have knelt at Army Penitent Forms, of whom nearly two thousand have been added to the rolls.

A striking example of progress wade is that there are more Solliers in the Division now than when the Brigadier took over the comntand, despite the transfer of the Alberta Corps. In thinking of the latter, it should be remembered that these include some of the larger Corps of the Dominion, viz.; Cal-

SCANDINAVIAN CONGRESSES - CONGRATHLATORY MES-SAGE TO KING GUSTAV GRACIOUSLY ACKNOWLEDGED-128 SEEKERS CLAIM PARDON OR HOLINESS

THERE is nothing in the world quite like the demonstration with which Sweden's Annual Congress opens. Tier upon tier of seats, as well as arena, of the Dinrgarden Gircus were, on Friday evening, erowded with representatives of the cleven Divisions of the Territory and the Men's and Women's Social operations, of the Deaf and Dumb Work, of Lapland, and the Young People.

cople. Commissioner Orcim, when welcoming Mrs. Booth and opening the Congress, announced that last year ologon thousand souls had sought Salvation in Army meetings in that wide-stretching country. There are now 778 Corps and Outposts, 66 Social Institutions, 1,042 Officers and Cadets, and over 6,700 Local Officers, Bandsmen, and

The national flag and naaudience. The national mag and na-tional songs were much to the front. These ideas are not merely a glorist-cation of the country, but maxily express a desire to be helped by God to be good and worthy chizens, and they not only have a natural place in great demonstrations, but help to make an effectual spiritual appeal.

Pathetic indeed was the company song, in signs by deaf mutes, under the leadership of Adjutant Carlson. Some Divisions gave miniature musical festivals, and the Lapland-

ers sang of long journeys on ski over snowy wastes when, having no one snowy wastes when, naving no one to speak with by the way, they sing songs of praise to God. A scene was hoisted, showing the world enveloped in clouds of sorrow—war—and the figure of a woman draped in the figure of a woman draped in black. This was eventually replaced by a scene depicting dawning day and girls in white, with palms, and girls in white, with palms, around The Army Flag. These belped Gothenburg's Division to de. seribe the world's need of a Saviour and to proclaim that victory over sin and eternal peace are to be found in God's Salvation.

Imposing Procession

Before the meeting a great march took place through the city's five avenues, and altogether the occasion was one to make every Salvationist feel proud, not merely because of the fine display and the demonstration of public esteem, but also for the compelling prescriation it was of the abounding life and effectiveness of the Organization in service or God and the people.

LIEHT-COLONEL TAIT

TO BE WELCOMED IN

Governmental Appreciation

The name of Lieut-Colonel W. Measures has travelled far and wide in Ceylon. He is very much hon-oured and loved, not only by the oured and loved, not only by the rank and file, but by the high officials of the Government. This is seen by the action of the Governor, when he ordered the hospital authorities to treat the Colonel free of charge. The hospital bill would otherwise have run up to several hundred rupees. Sir Allen Perry, Ki, in a personal letter, said: "That the Colonel has not only been a re-ligious leader, but a wise administrator and a commander, and that Ceylon will miss him." The Colonel has made many valuable friends for

The Army.

In spite of the war conditions we are glad to report that the Harvest are gaid to report that the Harvest Pestival Campaign has resulted in a record success. The total amount raised is eighteen hundred and two rupees against sixteen bundred and thirty-six rupees in the year before.

We have hailed with delight the appointment of Colonel Mary Tait as our new Leader. Some one com-ing direct from England seems to be a popular idea with our people in Ceylon, A real affectionate welcome awaits Colonel Tait in Ceylon,

Cevlon Riots

Regarding the serious riots which originated in Kandy and subsequently started almost all over the Island, having been carried on to an alarming extent, a recent paper had the following under Reuter's submarine telegraph:-

"London, June 7th, (10.30 p.m.).—
The Colonial Office reports that
there has been anti-Moslem rioting

Buddhists. Moslem shops in Kandy have been looted. Martial law has been proclaimed in several districts, The Governor reports that the disorder is due to a sudden outbreak of racial and commercial animosity. or racial and commercial animosity, and is not directed against the European population or the Gov-ernment. Much Moslem merchandisc has been destroyed, and num-erous murders have been com-mitted. Several rioters have been shot. The intest news is that the situation is improving."

struction is improving."

The above Colonial Office statement gives the gist of the whole thing. It started in Kandy over a thing. It started in Kandy over a Buddhist carol purty passing before a Mohammedan Mosque. Disturb-ances have taken place in several parts of the Island. Colombo has been the worst. Many lives have been lost, and an enormous amount of damage has been done to Mostem merchandisc, etc. All our people and property are safe. Since mar-tial law has been proclaimed public meetings are probibited. Everything quiet now, and normal conditions

prevail.
The Maliadda Vernacular School has been entered on the list of Government Grant-in-aid Schools. The first Government Examination of which will be held in August.— Ramaraveera, Field Secretary,

WAR CRY

Printed for The Salvation Army in Canada, New foundland, Bermuda, and Alaska, by The Salva-tion Army Printing House, 18 Albert St., Toronto

PRAYER WANTED

Salvationists, rank and file will be able to realize the importance of the great interchange of Staff that has been announced in the later issues of "The War Cry," and concluded in the interview with the Commicsioner in this. The changes are far reaching and affect the vitals of the Organization in Canada, but they have been made in the best interests of The Army, and are the outentire of nations, prayerful thought. ripe experience, and sound judge ment. But while decision has been made in the case of issuing farewell orders to the Officers concerned, the final word has not been said in connection with the appointments. We therefore ask all who are interested in the Kingdom of God to bear The Army up on the arms of faith and prayer, that God may direct the Leaders of The Army in these changes so that the year' best shall be done for the success of The Army and the Salvation of souls.

We would also ask our readers to remember the Commissioner in praver on his trip to Newfoundland The dear comrades on that island are; to a certain extent, isolated, and their opportunities of receiving visitors from the Dominion very limited. The visit, therefore, of the Commissioner is an event that counts for a great deal. The Commissioner's spiritual power and zeal, together with his fervid eloquence, will make him the channel for a great deal of inspiration; so pray that God may pour out His Spirit upon him, and that the Officers and Soldiers and friends of the Newfoundland command may receive a mighty impetus in their warfare against the world, the flesh, and the devil :

Last month one hundred and thirteen Cadets were welcomed to the Training College at Melbourne (Australia), Fifty other Candidates who intended entering were unable to do so owing to the war and the recent severe drought.

I shall do that in connection with the Congress,

"In the meantime, let the curious ones do some guessing. Let's see, there is the Training College, the Trade. Department, the Young People's Department, and those Di-

And am looking forward to some soul-stirring seasons among them, both at St. John's and in the Outports.

Brigadier McLean and Captain Brigadier McLean and Captain Cox paid us a visit on Sunday, July 18th, the occasion being the farewell of the Brigadier from the North-West Division. The Holiness meet-ing was a blessing, several recon-scerations taking place. In the afternoon the Brigadier spoke on his twenty-eight years' experience as an Army Officer from Newfound-land to California. This proved to be very interesting and inspiring. The evening service took the form

of a farewell service. Several comrades spoke a few words of fare-well to the Brigadier, and wished him God-speed in his new appoint-ment. We finished with four souls at the Mercy Seat. Mention must be made of Captain Cox's singing. which was fully enjoyed by every-one.-A. H. Smith. Corps Corres.

HE work performed by the Royal Flying Corps has continued to prove of the atmost value to the success of operations. Almost every day new methods of employing them, both strategically and testically, are discovered and put into practice. The development of their use and employment has been extra-ordinary, I feel that no effort should be spared to increase their number and perfect their equipment and efficiency.—Sir John French, Of course the British Government

deer not aumounce just what mesdoes not announce just what measures it is taking to carry out General French's recommendation (says a writer in "Munsey's Magazine"), but there is no doubt that it is doing all that can be done to increase its force of aeroplanes. It is safe to assume that all the English makers of aircraft are hard at work on army orders, and American newspapers have contained frequent references to British purchases in the United

States.

The key to the present demand for aeroplanes is to be found in the two words of the official report—
"etraterically and tactically." The States "strategically and tactically." The flying machine has more than proved itself as a "practical means of reconnoitering the enemy connoitering the enemy." It has strategy and has scriously hobbled the tacticians on the battlefronts. It may almost be said that two bicycle repairers of Dayton, Ohio, have made waste paper of the textbooks of Napoleon and Moltke.

For the essence of strategy is con-ealment, and the vital principle of cealment, and the vital principle of battle tactics is surprise. The aero-plane has made both next to impossible. You cannot conceal the movesible. You cannot conceal the move-ments of Inrge bodies of troops over a great area when the upper air is dotted with scores of military avia-tors equipped with powerful field glasses, and able to report by wire-less telegraph. Similarly, it is all but full to a termony more about futile to attempt a surprise attack in a small battle area when the air-men are watching your every move.

In the present article there is not In the present article there is not space for an extended demonstration of these propositions as illustrated by the events of the European War; but it is clear beyond argument that speed in transportation has been substituted for concealment. The rule "to get there first with the most men" still holds, but the acroplane has made it a consettor. the acroplane has made it a question for railroad superintendents and motor-lorry chauffenrs, instead of professors of strategy.

And in this growth it has followed with singular fidelity the general
plan of a modern navy. The fighting forces of the air have their scout

and their dreadnoughts, like a wellbalanced fleet of the sea; and it is predicted that we shall soon hear of flying tornedo houts which may prove a worse menace to shipping than the submarine.

In the first place, there are the

In the first place, there are the fleet scout cruisers of the air. These are small machines, usually of the biplane-tractor type. They carry only the pilot and an observer, and their the plane area is so small that they can remain in the air only when travel-ling at high speed. the maximum perhaps double that.

These fliers are used solely for observation work. Therefore they observation work. Therefore they are lightly armed, carrying a small machine gun at the most. Being too swift to have much fear of artillery, they need to protect themselves only from attack by other aircraft. The maximum speed of the cruising biplanes is approximately the minimum speed of the lighter scouts —but even so, they are dangerous to the swift spies because of their longrange hitting power. They shoot explosive shells, and it is not necesexplosive shells, and it is not neces-sary to strike one of the light ma-chines to bring it down. A shell that bursts anywhere within a goodly number of feet will create an air disurbance sufficient to upset the delicate halance of the enemy's swift flier, and to send it toppling, and over end, to the earth below.

THE STORY OF A YOUNG COUNTRY GIRL'S ADVENTURE IN A BIG CITY

WONDER now, if that's a square offer Phil made to Rosic?" mused Elsic, after her friend had gone. "I've heard some funity things about that some (unity things about that fellow, and I'm sorry I let Rose pick up with him now. I wonder if Harry White knows anything more about him than I do. I hate to poke my nose into other people's business, but for Rosie's sake, I'll find out what I can before it's too late."

What I can before it's too late.

One great privilege of Mrs. Maguire's boarders was being allowed to use the parlour. Elsie sauntered down there about seven o'clock, and down there about seven o'clock, and found Harry all alone, reading a paper. "I was hoping to find you by yourself," she said; "I want to have a talk with you." "Oh, what's up!—anything seri-

"I'm troubled about Rosic," said Elsie, plunging at once into the sub-icet, for fear others should come in and interrupt their conversation. Rapidly she recounted what had taken place, watching Harry's face the while to see if she could by any means catch any indication of his

"Don't know very much about Phil's business matter," said Harry; "I've only met him at dances and picnies and other lunctions, and I've picmes and other functions, and I ve always thought him a jolly good sort of fellow—very generous with his money. But I'll make some en-quiries amongst the fellows who're closer up to him than I am, and I'l there's any underhand business go-ing on I'll let you know to-morrow."

"Thank you, Mr. White," said Fisie; "I knew you would do any-thing you could to be of service to me and my little chum."

None can be too vile For love so beaming, None can be too dark For lights so streaming; Christ can make you whole Through faith believing, Full Salvation give to you.

COME IN, COME IN

Come in, my Lord, come in, And make my heart Thy home; Come in, and cleanse my soul from

sin,
And dwell with me alone. And gwen with me alone,
Thyself to me be given,
lu fulness of Thy love;
Thyself alone will make my heaven,
Though all Thy gifts remove.

Chorns: Come in, my Lord, come in,

My Lord, Thou dost come in—
I feel it in my soul:
I hear Thy words, my Saviour-King,
"Be every whit made whole."
Glory to God on high!
Let licaven and earth agree
My risen Christ to magnify—
For lo! He lives with me.
